

Bring Unity and Direction Back to the Georgia Division

**No Compromise, No Surrender, No Prisoners in
the Heritage Battles. Elect the leadership that will
wage total war on those who trample our Heritage.**

ELECT

JACK BRIDWELL

FOR GA. DIVISION COMMANDER

During the last two years, we all have watched the mood of the Georgia Division deteriorate. It has deteriorated to the point that some feel we now have two distinct sections of the State, and we seem to have lost our direction. Various Heritage battles, membership rights, and our Constitution/By-Laws have been ignored by members of the current leadership; this must come to an end.

We feel that it's time for us to come back together and re-establish the reason we are in the Sons of Confederate Veterans. We need to get back to up-holding the Charge, treating every Compatriot with the respect that he deserves, and carry the fight to those who would denigrate our Confederate forefathers and our Heritage.

We need leadership for the Future, Grounded in the Past. I would like to offer the Georgia Division a choice, for the following Slate of State-wide Officers for my new administration:

ELECT:

Joel Coleman – Lt. Division Commander North

Gary Ursrey – Lt. Division Commander South

Dan Coleman – Georgia Division Judge Advocate

Here are a few of the ideas and goals we have for the Georgia Division

1. Establish a Georgia Division Public Relations Committee to stand ready to communicate items of SCV interest to the appropriate media for publication.
2. Structure two different Georgia Division email lists. One for members who ONLY want to see and post announcements, including timely minutes of our EC meetings. The other list would include all the same announcements, but would also allow liberal discussion between members.
3. Push for the true history of the South to be taught in public and private schools. We want the Georgia Division to provide copies of "The Other Side of the Coin" a Southern View of History, WBTS frequently asked questions, etc. to be made available to all levels of secondary and post secondary schools.
4. Insure that internal Georgia Division problems will be handled within the Division. Only after utilizing ALL avenues as outlined in our Constitution and By-Laws should other bodies be contacted.
5. Appoint a committee to study the feasibility of opening a WBTS Confederate store/Division Headquarters, in a highly visible location. We believe this could be a money maker and a huge advertisement for our organization and our heritage.
6. Endeavor to put a copy of Pastor John Weaver's CD "The Truth Concerning the Confederate Battle Flag" into the hands of every Georgia legislator; all Georgia radio, TV and print media; and all Georgia school principles, history teachers and school board members.
7. Reinstigate the Flags over Georgia, locating the Flags of the Confederacy in many more high profile areas around the Division.
8. Insure that the recruiting signs, that are available to all individuals and Camps, are placed and our toll free number is always active.
9. Increase membership and retain those already with us by establishing an inactive "Reserve" roster to continue to keep in contact with past members.
10. Set up a genealogy links to our division website to make finding and verifying Confederate Veterans easier for potential members.
11. Re-establish the Robert E. Lee march, held in downtown Atlanta, on the day we hold the celebration of his birth.
12. Establish and maintain a good working relationship with the State Legislature and all levels of government.
13. The SCV should be interesting and fun for our younger members. We will look for methods to make this happen.

These are a few of the things we would like to see put into action in the Georgia Division. We feel it's time to put the Division back into the hands of the membership, therefore we ask for your support in June at our Division reunion in Villa Rica.
